

## Hinde Street Methodist Church Organ

The church contains a three-manual pipe organ by Bishop and Son, installed in 1864, and rebuilt when the present church was erected in 1887. It was later rebuilt and enlarged in 1983, with solid state electronic action. The church is currently planning a major cleaning and restoration project on the instrument to be undertaken by Bishops; it's most likely that this will take place over the summer of 2017.

The detached console is sited in the side gallery near the organ. The accessories include a dual memory switch which enables the resident organist to fix and lock their own piston settings, whilst a visiting player can arrange them to suit his/her requirements without upsetting those originally set; the latter can then be restored by the turn of a key switch.

### Specification:

Compass of manuals CC – A 58 notes and Pedal Organ CCC – F 30 notes
